Career Objective

Motivated web developer and data engineer with a strong foundation in both front-end and back-end development. Skilled in Ember.js, Java, Spring Boot, and experienced with AWS, Apache Airflow, and Databricks. Committed to delivering innovative solutions and eager to contribute to dynamic projects.

Work Experience

- **Tresvista Analytics, Pune**   July, 2022 - May, 2023
  Data Engineer
  ● Spearheaded data engineering projects leveraging AWS services, including data ingestion, transformation, and storage, contributing to efficient data processing and analytics workflows.
  ● Collaborated in the development and maintenance of data pipelines using Apache Airflow, ensuring data availability and reliability.
  ● Leveraged Databricks for data processing, analysis, and machine learning tasks, optimizing data-driven decision-making processes.

- **IDeaS, Pune**   July, 2021 - Dec, 2021
  Intern
  ● Gained hands-on experience in front-end development using Ember.js, building interactive and responsive user interfaces.
  ● Worked on the implementation of the Javers audit framework, enhancing data tracking and versioning capabilities.
  ● Contributed to the back-end development in Java and Spring Boot, ensuring robust and scalable server-side functionality.
  ● Developed and maintained the audit framework using Ember.js for the front-end, Java for the back-end, and integrated the Javers audit framework.
  ● Collaborated closely with the team to gather requirements, design user interfaces, and implement robust functionality.

Personal Projects

- **Personal Portfolio Website**
  https://dency-pambhar-portfolio.netlify.app/
  - Designed and developed a personal portfolio website, showcasing my skills, projects, and professional journey. This dynamic platform showcases my skills in web development, design aesthetics, and content curation. Utilised responsive design principles for optimal viewing across various devices the site offers a smooth and captivating user experience, ensuring its accessibility across all devices. The project demonstrates not only my technical proficiency but also my commitment to personal branding and effective communication through digital platforms.

- **Real Estate Website**
  http://poschh.com/
  - Designed and developed responsive, user-friendly front-end for real estate website. The front-end development using React and Tailwind CSS for seamless user experience and cross-device accessibility.

- **AI Powered Workout Planner**
  https://github.com/Dency-Pambhar/workout_planner
  - AI-driven workout planner app that utilises Python and OpenAI API for personalized fitness plans, with React and Redux for an engaging frontend.

Educational Qualifications

- **MIT WPU**   2022
  B. Tech in Computer Science
  9.8

Technical Skills

- ● Java
  - ● Python
  - ● Javascript
  - ● AWS
  - ● Databricks
  - ● Airflow
  - ● Pyspark
  - ● Tailwind
  - ● React
  - ● Nodejs
  - ● MySQL
  - ● ETL development
  - ● DBMS

Key Skills

- Communication and Interpersonal Skills
- Time Management
- Teamwork
- Email Writing

Interests

- Traveling
- Cooking
- Yoga

Languages

- English
- Hindi
- Gujarati
